

deister electronic provides high end technology for guarding, maintenance and facility management.

proxSafe is an intelligent solution for management and safeguarding of keys and valuables in secured areas.

loxx

proxSafe loxx is a module for the proxSafe racx System comprising 8 drawers. With proxSafe loxx you can lock away keys or other valuables in separate containers.

The proxSafe loxx is operated via a proxSafe user terminal. After successful authorization, the requested drawer is released and indicated by LED. It can then be opened by finger touch. Also by key return the drawer is being illuminated in order to guide the user to the right position.

proxSafe loxx is equipped with proxCylinders that identify the enclosed items by a proxSafe key tag. The proxCylinder provides reliable, contactless identification of the tag which is connected to the stored item.

Up to four proxSafe loxx can be mounted into a proxSafe racx Housing 16 and 8 proxSafe loxx fit in a 32 housing.

Your benefits at a glance

- **protects and secures** your keys and valuables by single access
- **robust appearance**
